Academic Conquest - VII

Subject: General Science (Ch. 1 to 6)

Marks: 30

Note: Figures to the right indicate full marks. Write neat and labelled diagrams wherever necessary.

Q.1 Choose the correct alternative and rewrite the sentence.

[5]

1. Which of the following is a prokaryote?
(a) Amoeba (b) Bacteria (c) Yeast (d) Euglena
2. Dengue is spread by the mosquito _____.
(a) Culex (b) Anopheles (c) Aedes aegypti (d) Housefly
3. The SI unit of pressure is _____.
(a) Newton (b) Pascal (c) Joule (d) Ampere
4. The potential difference of a lead-acid cell is nearly _____.
(a) 1.2 V (b) 1.5 V (c) 2 V (d) 4.5 V
5. The nuclear model of the atom was put forth by _____.
(a) Dalton (b) Thomson (c) Rutherford (d) Bohr

Q.2 Fill in the blanks.

[4]

- (a) Whittaker divided living organisms into _____ kingdoms.
- (b) Insulin is produced in the _____.
- (c) Magnetic force and gravitational force are examples of _____ force.
- (d) Bronze is an alloy of copper and _____.

Q.3 State whether the following statements are true or false. Correct the false statement(s). [3]

- (a) The cell wall of fungi is made up of chitin.
- (b) Tuberculosis is a non-infectious disease.
- (c) A proton is a negatively charged particle.

(B) Match the pairs. [3]

Group 'A'

1. Malaria
2. Cholera
3. Amoebiasis

Group 'B'

- a. Vibrio cholerae
- b. Entamoeba histolytica
- c. Plasmodium vivax

Q.4 Give scientific reasons. (Any 2 of 3)

[4]

- (a) The feet of a camel do not sink in sand.
- (b) An atom is electrically neutral.
- (c) The constituents of milk cannot be separated by ordinary filtration.

Q.5 Answer the following questions. (Any 3 of 4)

[6]

- (a) Write any two characteristics of viruses.
- (b) Distinguish between infectious diseases and non-infectious diseases (two points).
- (c) A box weighing 150 N rests on a table. The area of its bottom is 0.5 m². Calculate the pressure exerted by the box on the table.
- (d) Write the molecular formula of the compound formed by calcium (valency 2) and oxygen (valency 2) using the cross multiplication method.

Q.6 Answer in detail. (Any 1 of 2)

[5]

- (a) Describe the construction and working of a dry cell with the help of a neat labelled diagram.
- (b) Describe Rutherford's scattering experiment and write its observations and conclusions.
