Q.1 (A)

(a1) SMART stands for Specific, Measurable, Achievable, Realistic and Time-bound.

(a2)

(i) A goal should be specific because the more specific the area, the more refined the achievement of one's goal can be, and it makes it easier to set parameters and work towards the goal.

(ii) Measuring (quantifying) a goal provides specific ways to track progress against it, making it easy to benchmark performance throughout the goal period.

(a3) Open-ended – accept any relevant, well-reasoned personal response describing how the student sets specific, measurable, achievable, realistic and time-bound goals for studies.

Q.1 (B)

(b1) Immediately after diving at the fish, the young seagull fell outwards and downwards into space, and a monstrous terror seized him; but a moment later he felt his wings spread outwards and he began soaring gradually downwards and outwards instead of falling.

(b2)

(i) The seagull's heart stood still because he was overcome by a monstrous terror when he suddenly fell outwards and downwards into space after diving.

(ii) Once his wings spread outwards, he no longer felt himself falling headlong; he felt the wind against his feathers and the tips of his wings cutting through the air, and he was no longer afraid.

(b3) Open-ended – accept any relevant personal response about overcoming a fear.

(b4)

(i) seized

(ii) 'He could hear nothing.' (or any other Simple Past tense sentence from the extract, e.g. 'It only lasted a minute.')
